

## New Mexico Postsecondary Census Enrollment Trends Fall 2015-2024

Census enrollment is a snapshot of all enrolled students approximately 21 days after the first day of classes. This enrollment differs from the official, end-of-semester enrollment the New Mexico Higher Education Department normally reports, but the official enrollment is not available until several weeks after a semester ends -- there has to be time to ensure all grades are entered and to receive, edit, and process the files submitted to the agency by each institution. The Census enrollment provides an early snapshot of what the final enrollment is likely to look like. Typically, the final enrollment will be slightly higher than the Census enrollment, but the overall trend is usually consistent.

The tables in this report are from data collected by the New Mexico Higher Education Department from each institution after census date for the past nine years. There are four summary percent-change columns to the right of each table:

- 2015 to 2019 -- represents the change in enrollment prior to the onset of the COVID pandemic in 2020;
- 2019 to 2024 -- represents the change over the pandemic years, from 2019 to the most recent fall in 2024;
- 2015 to 2024 -- represents the total change in enrollment from 2015 through fall 2024; and
- 2023 to 2024 -- represents the most recent one-year change from fall 2023 to fall 2024

### Census Total Headcount Enrollment

| Institution Type/Institution Name               | 2015 Head Count | 2019 Head Count | 2020 Head Count | 2021 Head Count | 2022 Head Count | 2023 Head Count | 2024 Head Count | 2015 to 2019  | 2019 to 2024  | 2015 to 2024  | 2023 to 2024 |
