1. Welcome & Introductions
2. Previous Meetings Minutes Review
3. HED Updates
 - a. Retention Data
 - i. The memo has been distributed to the universities eligible for that GRO funding
 - ii. The methodology memo is available if anyone wants to see it
 - iii. I've run the data for all two-year colleges, but I'm hesitant to publish since first-time, full-time students are a small component of typical two-year enrollment, so I think it could be misleading data to publish, but I can share it amongst you all if you're interested in seeing it.
 - b. Workforce Pell
 - i. We'll provide a high-level summary of this new program
 - ii. With a focus especially on the data and reporting that would be required
 - c. eDEAR and non-credit
 - i. Related to Workforce Pell, but also other initiatives related to noncredit instruction, we're starting to look at a DEAR-similar format for collecting non-credit data
 - ii. Specifically, to collect SSN for matching to UI file at DWS, and to collect a new code for when/if Workforce Pell awards are awarded
 - d. Graduate degree inventory
 - i. With the new rule changes in our degree approval rules, we will begin to identify programs with no new enrollments over the previous three years
 - ii. We will add a new date field to our degree inventory table to indicate when no continuing enrollment is expected in a dormant or discontinued program, as distinct from new no enrollments expected.
4. Dual Credit
 - a. The contract with Resultant was finalized, over the next few months we'll be developing Tableau dashboards to display dual credit and concurrent enrollment data.

5. Next meeting
