4. Review of Dual Credit student's time to degree and average earned credit hours. (HED is waiting on report form Student Clearing House. Data only reflects earned credits and

doesn't take courses failed into account. Ricardo made mention of how poor dual credit performance impacts students' GPAS and the impact is SAP not being met and students fail to get financial aid like Lottery. Institutions are also having make a financial sacrifice when additional sections must be added to accommodate students whether traditional or dual credit. Kathleen pointed out that GPA comes with the student and students don't start over with GPA. Good examples of why academic support is so important.)
