2. Approval of Minutes from December 05, 2022 (Minutes Approved but HED later amended minutes to show that the NMAIRP meeting will take place on 2/17/23 rather than 2/16/23)

3. Review of Opportunity Scholarship Data submitted by the institutions (Mark provided a spreadsheet that gave number of students but did not include dollar amounts as the Secretary does not to put dollar amount too early before the Session. UNM and NMSU biggest beneficiaries. Community Colleges not as much. Mark will mail the data out as well as Town Hall presentation.)

4. Discussion data request to collect fall 2022 to spring census 2023 retention (Mark is going send out a survey for Spring census to see how many first-time full-time students returned.)

5. Display of the new “Workforce” measures by degree level (Need to identify less than one-year programs that were directly related to jobs that would eligible for Opportunity Scholarship. Presented list from DWS that show the high need job areas. Expand the funding formula to STEMHW. Might be worthwhile to make sure those programs added make sense or maybe don’t need to be on the list.)
