HIGHER EDUCATION: ***AN OPPORTUNITY TO REINVIGORATE NEW MEXICO'S ECONOMY***

The agency is working closely with higher education partners to address shared concerns and to grow together. Collaboration is the hallmark of a vibrant academic community. Creating conditions that encourage partnerships is an important way for our agency and higher education institutions to innovate and adapt in a time of rapid and continuous change.

Investment in higher education continues to be a priority, especially given the need to reinvigorate the economy following the COVID-19 pandemic.

HIGHER EDUCATION VALUES

We are dedicated to supporting students, higher education partners, and our communities to ensure New Mexicans have enhanced opportunities to recruit, retain, and yield a highly-skilled and well-informed workforce.

- We are committed.
 - Strategic Planning Group
 - Data Advisory Group
 - New Mexico Academic Advisory Committee
 - There is a focus on three main areas: dual credit, general education, and common courses
 - Convening of student-centered success groups and Chief Diversity Officers
 - Convening of communication professionals to share student-centered information

SANTA FE NEW MEXICAN

COMMENTARY STEPHANIE RODRIGUEZ

Collaboration is way forward for colleges, universities

Dec. 4, 2020

When I joined the New Mexico Higher Education Department as acting secretary in the late summer, I witnessed firsthand the many challenges facing higher education in our state, and most importantly, the difficulties many students face in accessing and completing a college degree.

There is no question that higher education is valuable to New Mexicans.

Over 30,000 of our citizens graduate from our public colleges and universities with degrees and certificates annually, and a majority of voters have supported higher education initiatives on state and local ballots over the past year.

However, as we face the need to revitalize our economy in the wake of the coronavirus pandemic, education and training programs that prepare New Mexicans for family-sustaining jobs and grow our workforce are more critical than ever.

**WE ARE
COMMITTED**

HIGHER EDUCATION'S COVID-19 RESPONSE

- In partnership with higher education leaders across the state, the New Mexico Higher Education Department and Office of the Governor developed statewide guidance for reopening college campuses and special schools.
- All plans addressed a common set of considerations that ensured adherence to public health and executive orders, embraced implementation of key mitigation strategies, and prepared institutions to respond to COVID-19 cases on campus.
