## Executive Summary

---

New Mexico high school students have the opportunity to enroll in college-level academic or career-technical courses via the Dual Credit Program. The Dual Credit Program allows students to earn simultaneous credit toward high school graduation and a postsecondary credential. The terms *dual enrollment* and *concurrent enrollment* do not necessarily provide for simultaneous secondary and postsecondary credit; the Dual Credit Program does.

The goal of the Dual Credit Program is to offer structured opportunities for high school students to enroll in college courses that lead to post-secondary credentials and provide essential job skills. Because Higher Education Institutions (HEIs) waive tuition and Local Education Agencies (LEAs) purchase books for students enrolled in the Dual Credit Program, students and families could save thousands of dollars on tuition and books. In order for students to realize this goal, it is imperative that the Dual Credit Program's policies support this goal.

To this end, staff from the Public Education Department (PED) and the Higher Education Department (HED) have suggested updates to the Dual Credit Program that will ensure that dual credit coursework is aligned with students' post-secondary goals.

## Introduction

---

According to the US Department of Education's (ED), *College Completion Tool Kit*, the best jobs and fastest growing firms—whether in biosciences, technology, manufacturing, trade, or entertainment—will gravitate to communities, regions, and states with a highly qualified workforce. In the coming decade, as reported by the Bureau of Labor Statistics, individuals with industry recognized certificates and post-secondary degrees at the associate, bachelor, and graduate levels are projected to continue to experience higher levels of employment and wage growth than those without such credentials.

The New Mexico Dual Credit Program allows high school students to enroll in college-level academic or career-technical courses offered by a public post-secondary educational institution or tribal college. Students may not take remedial, developmental, or physical education courses as part of the Dual Credit Program. Dual credit courses can be taken simultaneously with regular curriculum to earn credit toward high school graduation and a post-secondary credential. Dual credit supports P–20 education by maximizing students' educational attainment, providing opportunities for success in the workforce, and better ensuring students' contributions to their local communities.

To facilitate and improve the Dual Credit Program in New Mexico, the cabinet secretaries of the Higher Education Department (HED) and Public Education Department (PED) each appoint three individuals to the Dual Credit Council as outlined in 6.30.7 NMAC. The council chair alternates between the departments every two years.

The council makes recommendations to the cabinet secretaries on issues not addressed in the rule. The HED and PED secretaries act jointly in responding to recommendations including the following:

- Determining an alignment of course content to administer the appropriate credit ratio of 3 hours to 1 unit
- Administering an appeals process for LEAs and HEIs.

The HED and PED have developed a collaborative, systematic practice in order to facilitate the New Mexico dual credit process for high school students. This practice includes:

- Investing in relationships with colleges
- Modeling collaborative behavior
- Ensuring requisite communication and resolution skills
- Ensuring role clarity by HEIs and LEAs
- Supporting a strong sense of community
- Assigning team members who are both task and relationship oriented

By implementing this collaborative practice, the HED and PED generate consistent, engaging communication that enables high school students throughout New Mexico to complete dual credit courses with increased success and in greater numbers on an annual basis.

## Statutory Requirements

---

This section describes the laws and rules that apply to dual credit in relevant part as follows:

### 21-1-1-2. NMSA 1978 Dual credit for high school and postsecondary classes.

G. The higher education department and the public education department shall adopt and promulgate rules to implement a dual credit program that specify:

- (7) provisions for collecting and disseminating annual data, including
  - (a) the number of students taking dual credit courses;
  - (b) the participating school districts, charter schools, state-supported schools, Bureau of Indian Education high schools, public post-secondary educational institutions, and tribal colleges;
  - (c) the courses taken and grades earned;
  - (d) the high school graduation rates for participating school districts, charter schools, state-supported schools and Bureau of Indian Education high schools;
  - (e) the public post-secondary educational institutions and tribal colleges that participating students ultimately attend; and,
  - (f) the cost of providing dual credit courses.

H. The higher education department and the public education department shall evaluate the dual credit program in terms of its accessibility to students statewide and its effect on

- (1) student achievement in secondary education;
- (2) student enrollment and completion of higher education; and
- (3) school districts, charter schools, state-supported schools, Bureau of Indian Education high schools, public post-secondary educational institutions, and tribal colleges.

I. The departments shall make an annual report, including recommendations, to the governor and the legislature.

## Detailed Report

---

### Dual Credit Classes Defined

College courses eligible for dual credit are those that

- are academic or career technical; and
- earn credit toward high school graduation and a postsecondary degree or certificate.

*Please note: Remedial, developmental, and physical education courses are not eligible for dual credit.*

- Courses may be taken as an elective or core course and
  - must meet the PED standards and benchmarks;
  - shall meet the rigor for postsecondary institution credit;
  - may be offered at LEAs, postsecondary institutions, and off-campus centers; and
  - may be delivered during or outside of regular LEA hours or via distance learning.
- There is currently no state limit to the number of credits a student may earn through dual credit in an academic term.

Successful completion of three credit hours of postsecondary instruction shall result in the awarding of one high school unit.

# Demographic Description—Provisions for Collecting and Disseminating Annual Data

A memorandum of understanding (MoU) between the PED and the HED has been implemented to ensure that data validations for Dual Credit Program participation are addressed on an annual basis. This MoU provides the means by which provisions for collecting and disseminating annual data are accomplished.

Types of Dual Credit Data Collected	
<ul style="list-style-type: none"><li>• Birth Date</li><li>• Credit Hours</li><li>• Course Location</li><li>• Demographics<ul style="list-style-type: none"><li>○ Name</li><li>○ Ethnicity</li><li>○ Gender</li></ul></li><li>• Grades</li></ul>	<ul style="list-style-type: none"><li>• High School</li><li>• Method of Course Delivery</li><li>• Postsecondary Institution</li><li>• Social Security Number (SSN)</li><li>• Student Teacher Accountability Reporting System Identification (STARS ID)</li><li>• Types of Courses Taken</li><li>• Year of High School Graduation</li></ul>

The four tribal institutions’ data are included.

## The Number of Students Taking Dual Credit Courses

### Dual Credit (DC) Enrollment Information

☐ **Summer 2018**  
2,131 Students \*  
3,488 Records \*\*

Academic Year 2018–2019

☐ **Fall 2018**  
14,250 Students \*  
22,756 Records \*\*

20,080 Unique Students\*\*\*  
10,976 Female Students  
9,104 Male Students

☐ **Spring 2019**  
13,269 Students \*  
22,169 Records \*\*

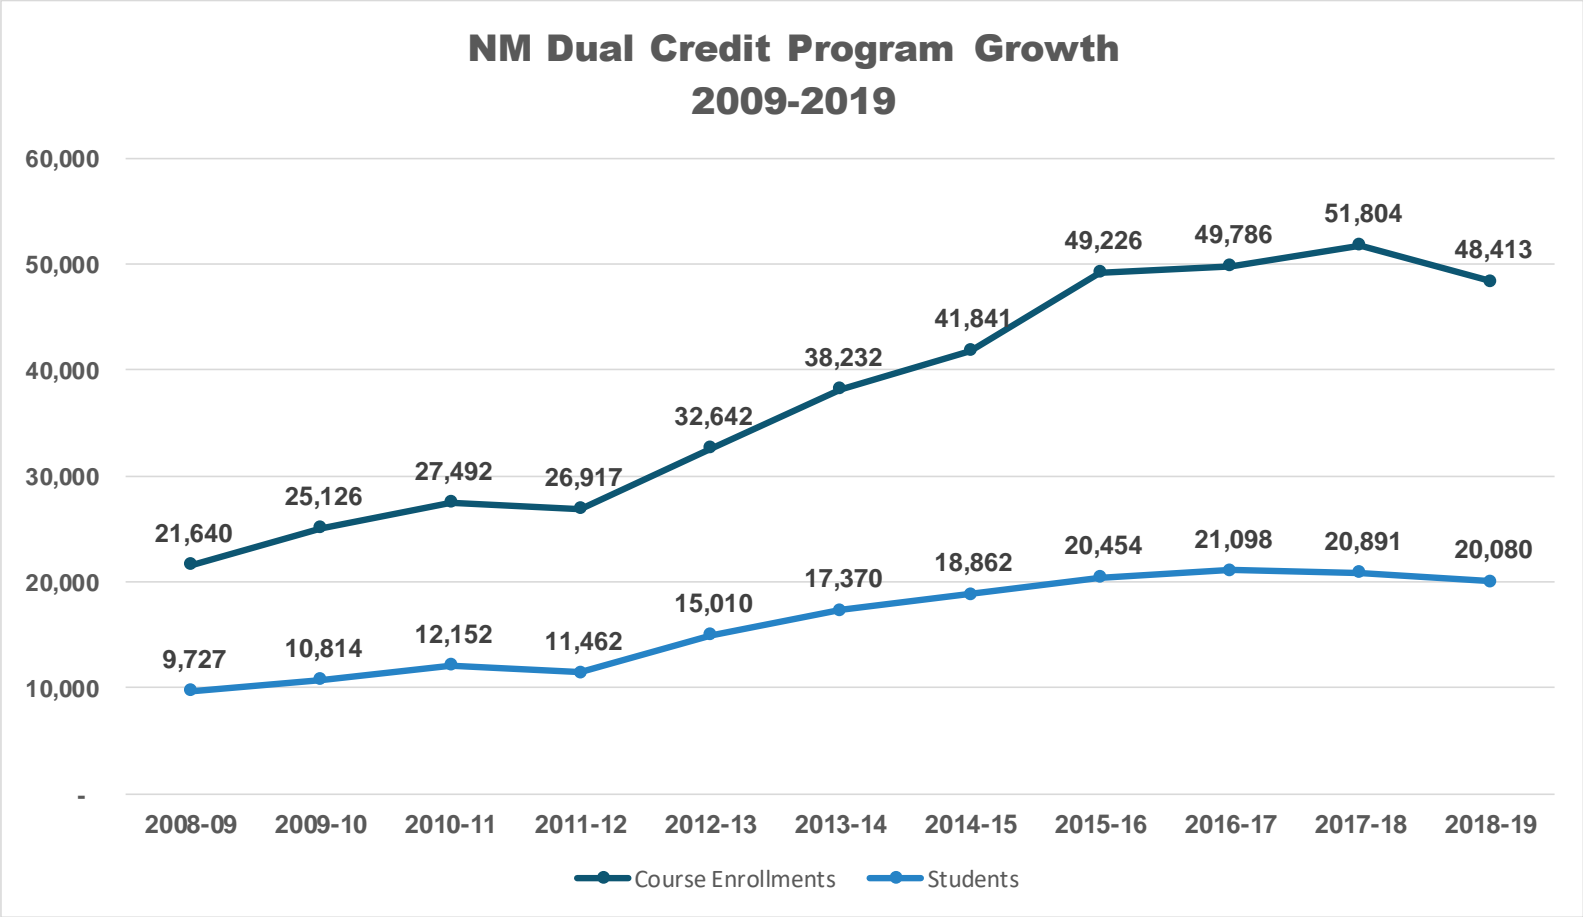

\* **Students** represents a distinct head count for a dual credit student for each semester.

\*\***Records** refer to the number of courses each student can take in a given semester (e.g. one student can take three classes so there will be three records).

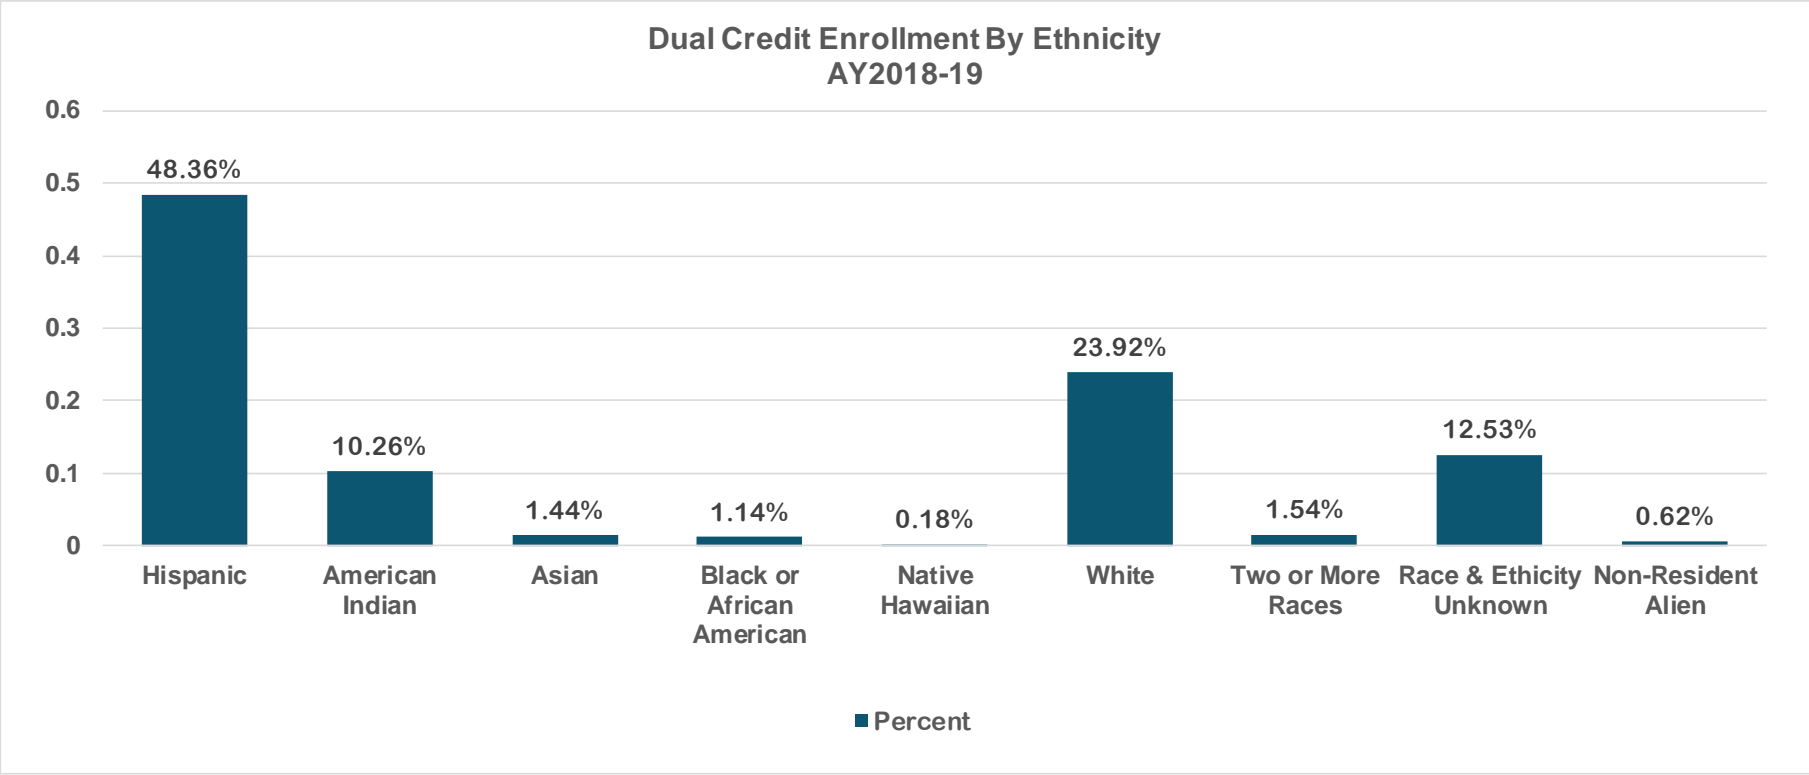

\*\*\* For AY 18-19, **Unique Students** refers to distinct students that were taking DC courses in any semester. There were (20,080) unique students in total for AY18—19.

# Year-Over-Year Dual Credit Program Growth

# Ethnicity and Dual Credit Enrollment

Dual Credit Enrollment by Ethnicity: AY2018–19

*Non-Resident Alien* refers to a student who is not a U.S. citizen or does not have a permanent resident status. *Native Hawaiian* includes *Pacific Islander*. Data is being reported under the new ethnicity guidelines. Distinct student count within each Academic Year (Summer 2018, Fall 2018, and Spring 2019)

## Participating Entities

The chart below details information for the AY 2018-2019 and Class of 2018 cohort. As shown in the list below, the overall statewide cohort graduation rate for students taking dual credit is 87.9 percent this year. This represents an increase from 85.5 percent attained last year.

The table below incorporates the following statutory data requirements:

- **Participating entities.** Include participating school districts; charter schools; state-supported schools; Bureau of Indian Education high schools; public, postsecondary educational institutions; and tribal colleges.
- **High school graduation rates.** Include rates for participating school districts, charter schools, state-supported schools, and Bureau of Indian Education high schools.
- **Participating public, postsecondary, educational institutions.** Include the public, postsecondary, educational institutions and tribal colleges that participating students ultimately attend.
  - ◆ Participating entities
  - ◆ High school graduation rates
  - ◆ Participating public, postsecondary educational institutions

## Subject Areas and Enrollment

Certain content areas attract a greater number of enrollments. In either fall and/or spring semester of AY 2018–2019, these subject areas served 500 or more enrollees on average across the fall and spring semesters.

Content Area	Number of Enrollees		Fall/Spring Total
	Fall	Spring	
Agriculture Business and Production	814	625	1,439
Biological and Life Sciences	1,137	1,176	2,313
Business Management and Related Services	727	816	1,543
Communications	490	387	877
Computer and Information Sciences	1,087	1,190	2,277
Education	367	801	1,168
Engineering-Related Technologies	477	493	970
English Language and Literature / Letters	1,884	2,027	3,911
Foreign Languages and Literatures	1,108	1,219	2,327
Health Professions and Related Sciences	1,245	1,486	2,731
History	1,026	822	1,848
Liberal Arts and Sciences	905	375	1,280
Mathematics	2,095	1,627	3,722
Mechanic and Repair Technologies	441	312	753
Personal Awareness and Self-Improvement	1,557	971	2,528
Physical Sciences	1,243	1,124	2,376
Precision Production Trades	740	805	1,145

Social Sciences	1,060	1,170	2,230
Visual and Performing Arts	1,479	1,416	2,895

# The Number of Dual Credit Classes Taken Per Student

Number of Dual Credit Classes Taken: AY2018-2019

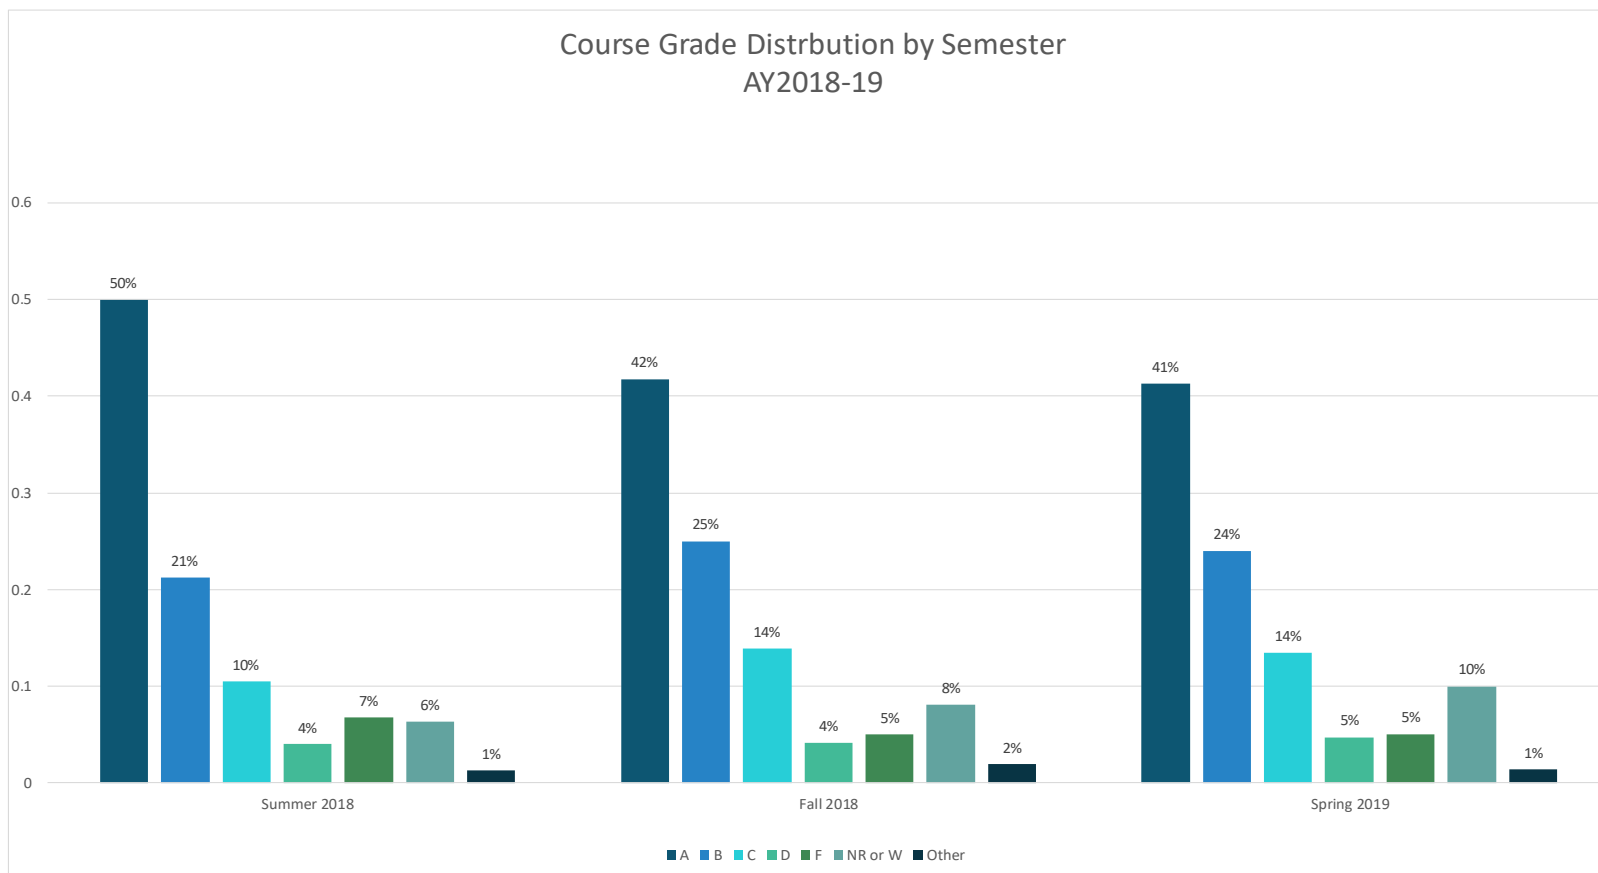

Students may accumulate dual course credit by taking more than one dual credit class in a single semester. The majority of students using this opportunity to sample the college experience are by students who appear to be aggressive in their pursuit of dual credit.

than one dual credit class in a single semester, followed by students who appear to be aggressive in their pursuit of dual credit.

# Student Grades Earned in Dual Credit Courses

Dual Credit Course Grade Distribution AY2018-19

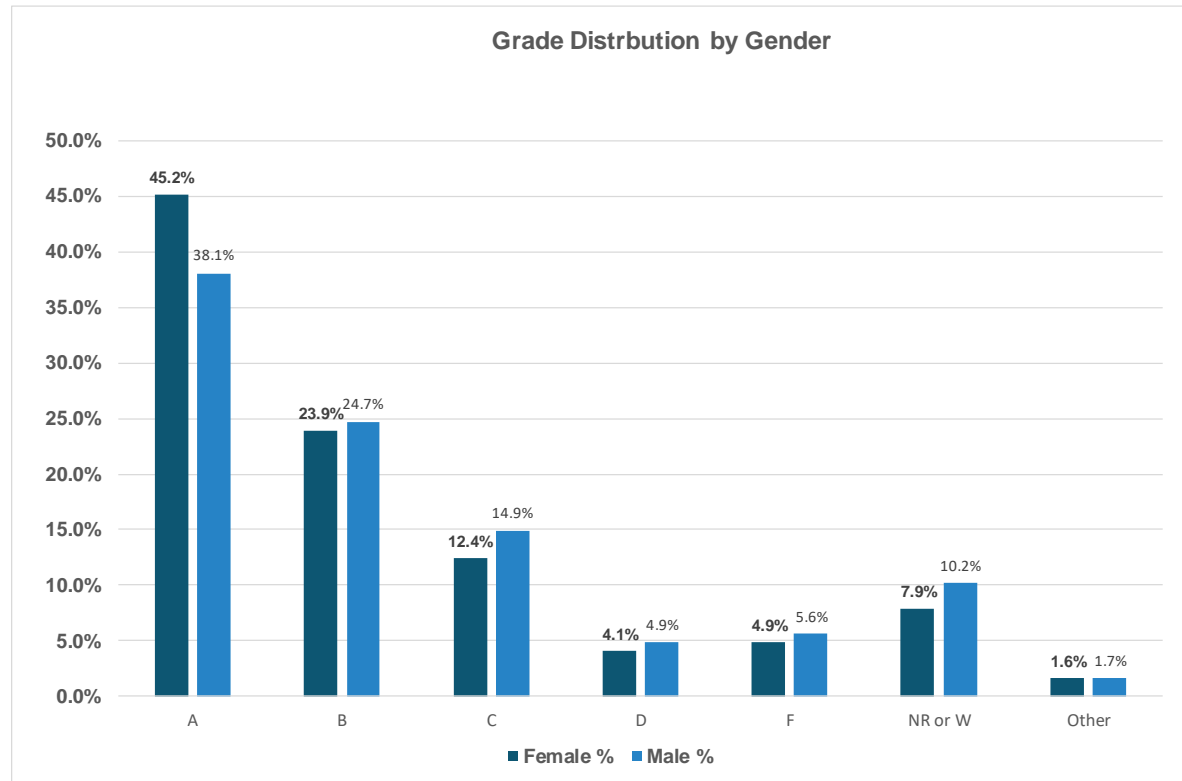

New Mexico's School Grading Accountability system requires that students in dual credit courses achieve a grade of C or better in order to be considered successful. Under that standard, 80 percent of the 48,413 dual credit courses met the success criterion in school year 2018–2019. That is an increase of 4 percent from the previous academic year (76 percent versus 80 percent).

Of the remaining course enrollments considered unsuccessful, a portion (4 percent) did not receive a credit-bearing grade (See: Other) or the student may have dropped out prior to receiving a grade. In either case, they did not meet the requirements for success, according to the NM School Grading Accountability system criteria. By comparison, 9 percent of students last year did not receive a credit-bearing grade.

## Student Gender and Dual Credit Grades Earned

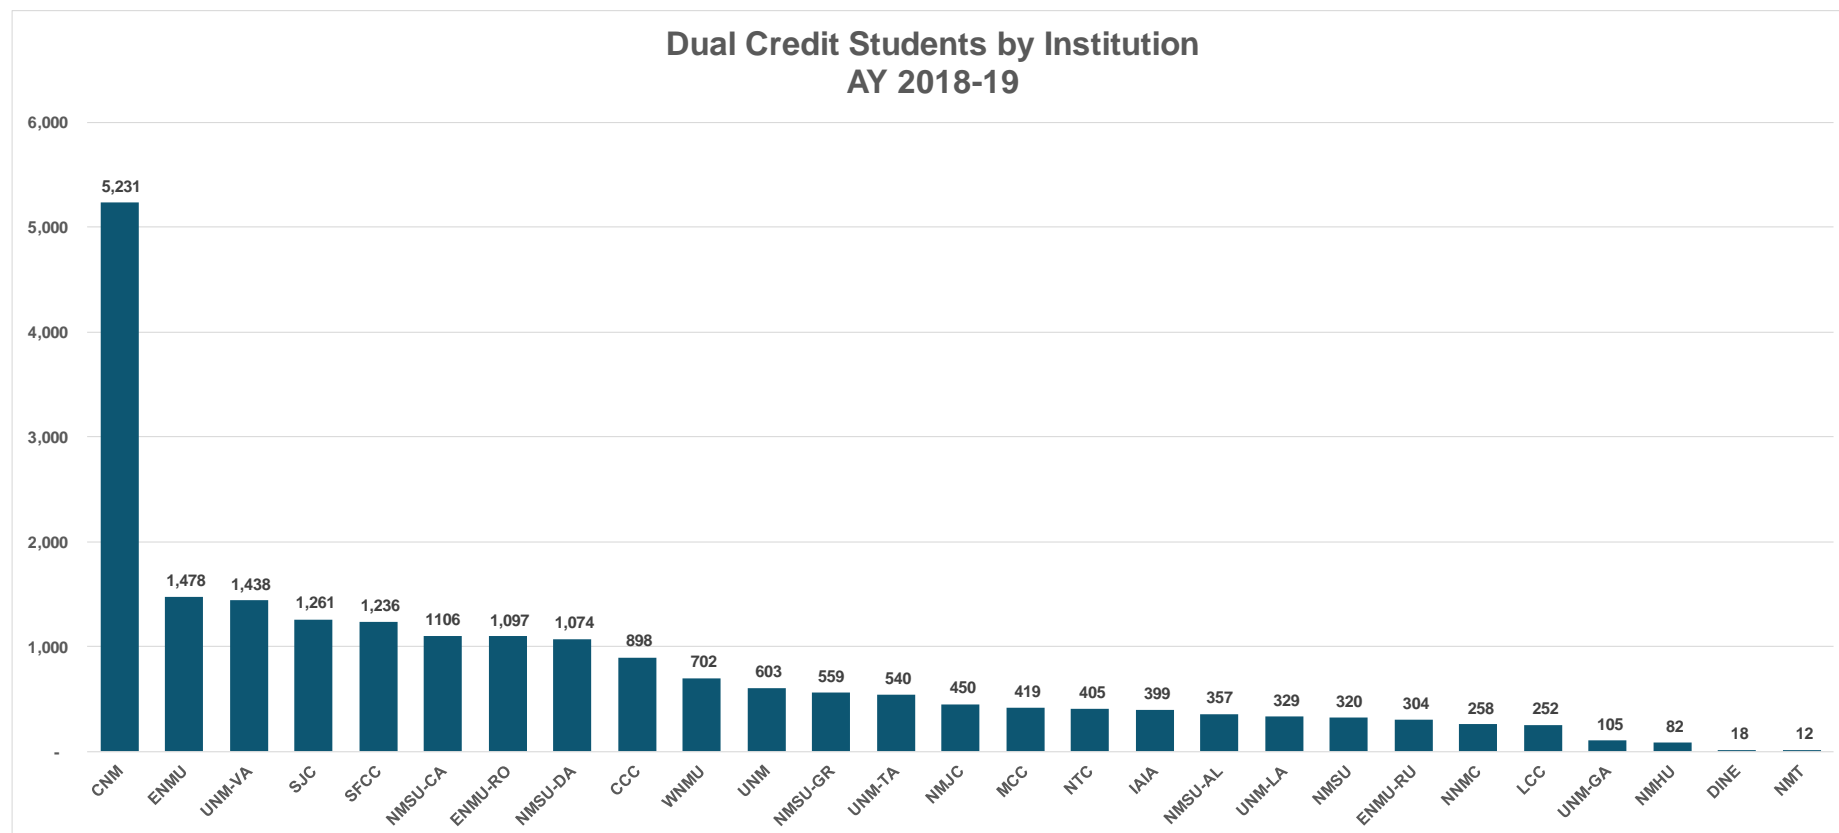

## Dual Course Grade Distribution by Gender AY2018-19

Females earn A grades more often than do males in their dual credit courses; however, both genders receive an average grade of C or lower on an approximately equal basis.

## New Mexico Public Colleges and Dual Credit Student Enrollment

### Dual Credit Enrollment at Postsecondary Institutions

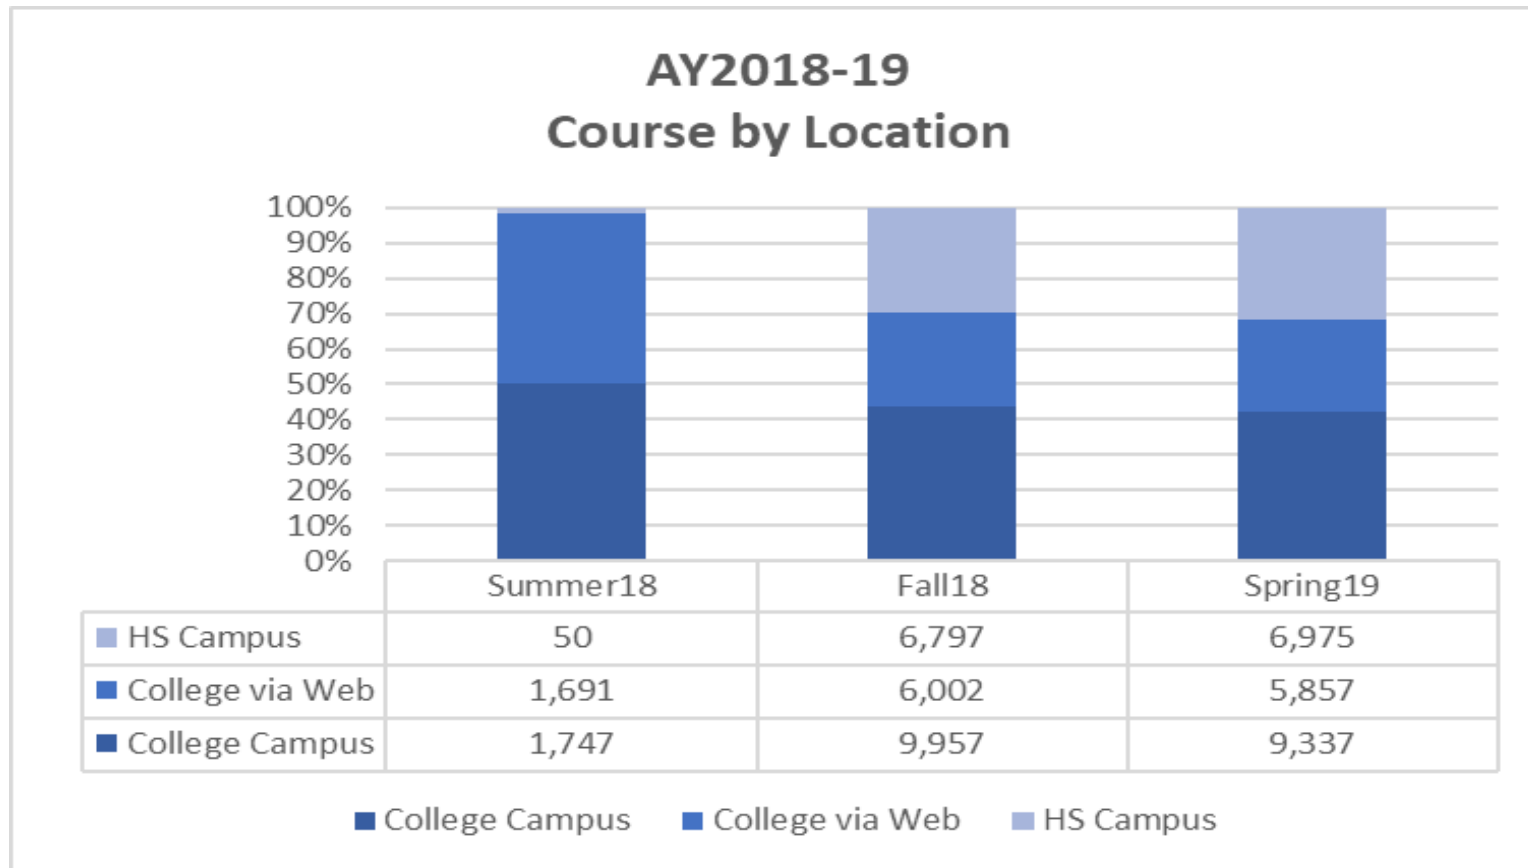

There are 27 institutions that participate in the Dual Credit Program. A complete list of institution abbreviations is available in the appendices section of this report.

There are four institutions that serve the majority of dual credit students. These are Central New Mexico Community College, ENMU, UNM-Valencia and San Juan College. These counts of dual credit student enrollments should be viewed in the context of the institutions' total enrollment and size.

\*\* 19,262 students took a course from only one institution. 818 students took courses from more than one institution

## Online High School and College Dual Credit Course Delivery

### Dual Credit Course Delivery and Location AY2018-19

The chart compares online and web-based to regular instruction; it illustrates the number of students taking courses online and web-based instruction is similar to the number of regular instruction courses being taken at a high school or college campus.

## The Cost of Providing Dual Credit Courses

---

The PED disbursed a total of \$895,637.00 during fiscal year 2018 (AY 2018–2019) for instructional materials related to dual credit. This amount represents a 4 percent decrease compared to AY 2017–2018.

## Evaluation of the Dual Credit Program

---

The HED and PED evaluation of the Dual Credit Program—in terms of its accessibility to students statewide and its effect on school districts; charter schools; state-supported schools; Bureau of Indian Education high schools; public, postsecondary educational institutions; and tribal colleges—confirms the following:

- The collaborative partnership forged between the PED and HED supports dual credit courses throughout New Mexico.
- The structure for offering dual credit courses is providing diverse dual credit course offerings to New Mexico high school students.
- During the 2018–2019 academic year, 20,080 individual students enrolled in 48,413 dual credit courses.
- Specific progress indicators—including enrollment, percentage of students who complete courses, the grades achieved, and course delivery options—must be collected and monitored. Data must be used to drive decision making.
- An initial internal data evaluation suggests the need for greater research focused on program quality and proficiency and remediation rates in English language arts (ELA) and mathematics.

While it is clear that the Dual Credit Program continues to deliver access to college courses, enhancements and the resolution of problems and issues will be addressed via the ongoing collaboration of the HED and PED in the forum of the Dual Credit Council (DCC).

## Dual Credit Council Activity

---

The Dual Credit Council (DCC) held additional working meetings to advance an agenda of evaluation and enhancement, updating its focus on current dual credit practice within the state of New Mexico. The Council released a Policy and Procedures Manual in spring 2018. The manual serves as a recommendation of best practices for administering dual credit activity for higher education institutions, school districts, students and parents. The Policy and Procedures manual for dual credit can be found at:

[https://hed.state.nm.us/uploads/documents/PSA\\_Dual-Credit-Policy-and-Procedures-Manual-4.2.18.pdf](https://hed.state.nm.us/uploads/documents/PSA_Dual-Credit-Policy-and-Procedures-Manual-4.2.18.pdf)

Specific areas on which the DCC focused its work included the following:

- Matching New Mexico dual credit practice with Higher Learning Commission recommendations
- Establishing consistency of rigor across all dual credit courses and locations
- Addressing dual credit faculty qualifications
- Considering career readiness cut points to support process development of student eligibility parameters
- Refining STARS reporting to improve data integrity and data alignment between the HED and PED
- Developing transfer of credit recommendations between secondary and postsecondary schools
- Increasing the breadth of dual credit.
- Frequently asked questions (FAQs) available on the PED website.

The work of the DCC in these specific areas will maintain the culture of continuous improvement that both New Mexico education departments embrace, but more importantly, this work will promote student achievement and personal and professional growth that advances college and career readiness, workplace success, and social responsibility.

## Trends

---

New Mexico's geography and sparse population pose challenges for the state. There are over 300,000 students in grades K–12. New Mexico is ranked 36<sup>th</sup> in overall population size, has the fifth largest land mass in the U.S., and ranks 46<sup>th</sup> in population density. Furthermore, having only 17 people per square mile creates a unique challenge for education in rural areas. By offering courses in post-secondary institutions throughout the state, the dual credit program provides opportunities for students who reside in rural areas.

New Mexico's demographics provide unique opportunities for the state. The V2018<sup>1</sup> census counts 49.1 percent Hispanic, 37.1 percent White, 10.9 percent Native American, 2.6 percent African American, and 2.0 percent Asian, Native Hawaiian or Pacific Islander. New Mexico's majority-minority status requires creating solutions to increasing academic success for every student and closing the achievement gap. Dual credit offerings in New Mexico provide opportunities for all students, regardless of race and ethnicity.

Education is a key to economic prosperity—good jobs and higher earning power. Benefits from dual credit enrollment are being gained by both high school and college students across the U.S. and include the following:

### **While in high school**

- Enhancing the high school curriculum
- Enhancing opportunities for underserved student populations
- Reducing high school dropout rates
- Increasing students' motivation and their ability to envision themselves attending college
- Making more effective use of the senior year in high school

### **The transition**

- Developing the connection between high school and college curricula
- Facilitating the transition between high school and college
- Improving relationships between colleges and their communities
- Easing t of students to college
- Acclimatizing students to the college environment
- Preparing students for college work and reducing the need for remedial coursework

### **The college experience**

- Allowing students to complete a college degree more quickly
- Reducing costs for a college education

<sup>1</sup> <http://www.census.gov/quickfacts/table/nm/PST045218>

## Conclusion

---

The Dual Credit Program can facilitate transition from high school to college, greater likelihood of success in subsequent collegiate work, and enhanced chances of earning a high school diploma and college degree. Other benefits include the reduced cost of enrolling in higher education courses and opportunities to access college facilities and resources—such as tutoring, computer labs, and counseling services—as a high school student. Enrollment in the program can enhance skills needed to be successful at the collegiate level—such as time and resource management, critical thinking, and the ability to study effectively.

Dual credit also provides a variety of experiences for high school students as follows:

- Opportunities in career technical programs of study
- Keeping students interested and engaged in high school for the full four years
- Challenging coursework for those who have surpassed the regular curriculum
- Inspiration for those who might otherwise not be interested in graduating from high school
- Familiarity for those who are interested in the college experience
- Action plans for those whose next step plans call for higher education

Dual credit processes must continue to be actively reviewed and work must be completed to ensure that the delivery model is in the best interest of students' academic achievement and professional development. Maintaining New Mexico's dual credit delivery model consistent with best practices and research is an ongoing objective of the DCC.

The DCC provides leadership, encourages community input, and generates policy to ensure that New Mexico's students have access to educational opportunities that can create individual academic and technical advantages consistent with those of the best schools nationwide.

## Appendices

---

Dual Credit Responsibilities

Glossary

Acronyms

Links

Higher Education Institutions Participating in the Dual Credit Program

### Main Postsecondary Institution Responsibilities

- Designate a representative to manage the Dual Credit Program
- Make every effort to adopt textbooks for at least three years
- Determine, in collaboration with the LEA, the required academic standing of each eligible student
- Provide information and orientation to the student and parent/guardian
- Waive all general fees and tuition for high school students
- Track progress of dual credit enrolled students on the issue of academic performance and provide these reports, as needed, to the LEA
- Provide final grades to the LEA for each dual credit student

### Main LEA Responsibilities

- Designate a representative to manage the Dual Credit Program
- Determine, in collaboration with the HEI, the required academic standing of each eligible student
- Qualify students based on factors that may include academic performance, next step plan, assessments, and guidance
- Provide information and orientation to each student
- Notify the postsecondary institution if the student's schedule of classes is in conflict with the school-endorsed registration
- Provide appropriate accommodations for special education students
- Pay the cost of the required textbooks
- Collaborate to offer dual credit courses at the high school site
- Record, unchanged, the grade given to the dual credit student by the postsecondary institution on the high school transcript

### Main Student Responsibilities

- Be enrolled for ½ or more of the required LEA credits or be in attendance at a Bureau of Indian Affairs funded high school for at least three contact hours per day
- Meet LEA and HEI requirements to enroll
- Complete the dual credit request form and obtain permission from the LEA and HEI representative
- Arrange transportation to the site of the dual credit course
- Be responsible for course-specific fees (e.g., lab, computer)
- Adhere to schedules for both LEA and HEI
- With parent or guardian, sign the FERPA release form on the dual credit request form
- Return textbooks to the LEA

**Agreement**

The Dual Credit Uniform Master Agreement as per New Mexico Administrative Code (NMAC) 6.30.7.8

**Bureau of Indian Education High School**

A school located in New Mexico that is under the control of the Bureau of Indian Education of the United States Department of the Interior

**Classification of Instructional Program (CIP)**

This is a taxonomic coding scheme that contains titles and descriptions of instructional programs, primarily at the postsecondary level. The CIP was originally developed to facilitate the USDOE National Center for Education Statistics' collection and reporting of postsecondary degree completions, by major field of study, using standard classifications that captured the majority of program activity.

**Core Course**

Courses required for high school graduation, as defined in 22-13-1.1 NMSA 1978, excluding physical education courses and electives

**Developmental Course**

Developmental courses are courses that prepare students for college-level courses. While these courses do not count toward college degree requirements, they serve an important function as "refresher" courses to help improve math and writing skills. They can increase the likelihood of success when the student takes regular college courses.

Courses with the following Classification of Instructional Program (CIP) codes are considered developmental courses, and are not available for DCIM reimbursement. Because these courses may not align with secondary standards, they are not appropriate for high school credit:

32.0101: Basic Skills and Developmental/Remedial Education: General,

32.0107: Career Exploration/Awareness Skills, and

32.0199: Basic Skills and Developmental/Remedial Education: Other;

**Dual Credit Council**

An advisory group, consisting of PED and HED staff, who issue recommendations to the cabinet secretaries of the public education and higher education departments regarding dual credit issues

**Dual Credit Program**

A program that allows high school students to enroll in college-level courses offered by a public, postsecondary educational institution or tribal college that may be academic or career-technical, but not remedial or developmental, and simultaneously earn credit toward high school graduation and a postsecondary degree or certificate

**Elective Course**

Courses defined and approved as such by local school boards

**FERPA**

The Family Educational Rights and Privacy Act 20 U.S. Code 1232g

## Glossary (continued)

---

### General Fees

As defined in 5.7.18 NMAC and Subsection B of Section 21-1-4-NMSA 1978, this means a fixed sum charged to students for items not covered by tuition and required of such a proportion of all students that the student who does not pay the charge is an exception. General fees include fees for matriculation, library services, student activities, student union services, student health services, debt service, and athletics. An institution may charge fees in addition to general fees that are course-specific or that pertain to a smaller proportion of students.

### Local Educational Agency (LEA)

A district as defined in 6.29.1.7 NMAC (a public school district, a state-chartered charter school, a state educational institution, or a Bureau of Indian Education funded high school)

### Physical Education Activity Course

Courses with a CIP code of 36.0108

### Postsecondary Institution/Higher Education Institution (HEI)

A public, postsecondary educational institution operating in the state, including a community college, branch community college, technical vocational institute, four-year educational institution, or tribal college

### Remedial Course

Courses with CIP codes of 32.0104 or 32.0108 that fall within the numeracy and computational skills, pre-collegiate mathematics skills, pre-collegiate reading skills, pre-collegiate writing skills, or communications skills categories

### Tribal College

A tribally, federally, or congressionally chartered postsecondary educational institution located in New Mexico that is accredited by the North Central Association of Colleges and Schools
