RESTART NM PROJECT

21-631-1001-00074

FUNDING SHORT-TERM TRAINING OPPORTUNITIES TO SUPPORT STATEWIDE WORKFORCE DEVELOPMENT AND ECONOMIC REOPENING

Background Information and Overview of Restart NM Project:

RestartNM will focus on two groups of New Mexicans: workers and employers. Concise, effective, easy to understand support services for each group will be provided to help each ramp up as COVID cases decline and the state's economy reopens. RestartNM is a statewide strategy that includes several partners, both public and private to create a hub for workforce development opportunities, direct job referrals, resources to overcome work-related barriers, and guidance on safe return-to-work practices. NM's public postsecondary institutions will be a critical partner in this project by ensuring access to training programs that are effective, efficient and quickly available.

The Restart New Mexico (RestartNM) project will target funding resources to create short term training programs designed to get New Mexicans prepared for diverse work opportunities that lead to immediate and direct employment in in-demand jobs. Additionally, RestartNM will coordinate access and amplify awareness of services by implementing the following strategies:

- Develop and implement a comprehensive statewide RestartNM marketing campaign.
- Develop a website (RestartNM) dedicated to information on short and long-term educational and work pathways.
- Create a central chat and phone line that allows New Mexicans to direct-connect with a career consultant.
- Work in partnership with NM postsecondary institutions and Adult Education programs to develop boot camp, short term training programs for in-demand occupations.

Strategies are dependent on collaboration among several state agencies including the Department of Workforce Solutions, Higher Education Department, Human Services Division, and the Office of the Governor. Together these partners, RestartNM Collaborative, shall create a hub for workforce development opportunities, direct job referrals, resources to overcome work-related barriers, and guidance on safe return-to-work practices.

The following Request for Application (RFA) shall provide eligible applicants with guidance on the process for receiving financial resources needed to design and implement boot camp and

short-term trainings developed in partnership with business partners that prepare job seekers for in-demand occupations.

For the purposes of this RFA, boot camp and short-term trainings are defined as workforce development opportunities that prepare participants for immediate employment opportunities in a specific field that results in a certificate of content mastery or credential in an in-demand occupation. Fundable short-term trainings and boot camps under this RFA shall not exceed 12 weeks of instruction.

Total Funds Available

It is anticipated that a total of approximately \$1.5 million will be awarded under this announcement, depending on the availability of funds, quality of applications received and other applicable consideration. Fund ceiling per program is up to \$80,000 inclusive of allowable indirect costs.

The New Mexico Department of Workforce Solutions (NMDWS) reserves the right to reject applications and make no awards or make fewer awards than anticipated under this RFA. NMDWS further reserves the right to make additional awards under this announcement, if additional funding becomes available after the original selections are made. Any additional selections for awards will be made no later than six months after the original selection dates.

Eligible applicants

Alignment with in-demand occupations, and demonstrated employer support	30
Streamlined application and admissions process	10
Budget summary and cost efficiency of participant impact	20
Training timeline, the extent to which the institution can ensure content mastery over a 12 week period or less and assure completion of certificates of content mastery and/or industry recognized credentials	20
Total Points	100

Reporting Requirements

All awardees will be responsible for submitting a performance report no later than 30 days following the completion of the first funded program. The report shall include the following:

- Roster of students enrolled
 - First and last name, and last four of social security number

- Identification of which students successfully completed the funded program
- Overview of the barriers that prevented program completion
- Expenditure report

Other Provisions

- Program completion requirements must include participant registration in the NM Workforce Connection Online System.
- Program funding shall not be used to supplant existing resources dedicated to workforce development programming. Applicants are encouraged to leverage existing resources to maximize program effectiveness and efficiencies.
- The workforce development system established under WIOA emphasizes informed consumer choice, job-driven training, provider performance, and continuous improvement. The quality and selection of providers and programs of training services is vital to achieving these core principles. As required by WIOA Sec. 122, states, in partnership with Local Boards, must identify eligible training providers (ETPs) and programs that are qualified to receive WIOA title I-B funds to train adults, dislocated workers and out-of-school youth ages 16 through 24*, including those with disabilities. The approved State list of eligible training providers and programs serves as an important tool for participants seeking training to identify appropriate providers and programs, and relevant information, such as cost and program outcomes. WIOA Sec. 122 (c) specifies that states must establish an application procedure for training providers and programs to maintain their eligibility and the eligibility of their programs.

The New Mexico Department of Workforce Solutions (NMDWS) works in partnership with the Local Workforce Development Boards (LWDBs) provide oversight and administration for the Eligible Training Provider (ETP) certification system.

A program of training services is defined as one or more courses or classes, or a structured regimen that leads to a recognized post-secondary credential, secondary school diploma or its equivalent, employment, or measurable skill gains toward such a credential or employment. These training services could be delivered in person, on-line, or in a blended approach.

Training providers or programs may apply for initial eligibility at any time. All applications for the ETPL will be completed using the Workforce Connection On-Line System. The online application process for training providers starts with verifying the training provider is licensed, certified, or authorized by the New Mexico Department of Higher Education, or the relevant state agency or oversight agency, to operate training programs. If a provider is in compliance with the oversight agency, the

provider can proceed to the next step in the application process. If a provider is not in compliance with the oversight agency, the provider will not be able to apply for inclusion on the ETPL until they meet the necessary requirements.
